## Real Hero Of All France Is Gen. De Lattre, Foe Of Boche

Southern France, Sept. 7 (Delayed) (AP)-The last time Gen. Jean De Luttre de Tassigny was around these parts he was the hunted instead of the nunter.

That was when his wife and son; helped him escape from prison at: Prom, where he was supposed to: spend ten years for being one of the few French leaders who told the Germans "you're going to have to fight for it" when they cracked down on what was left of France in . Movember, 1942.

Now he is back as commander of the French armies. Through his brilliant strategy Marseille and Toulon were taken in the early days of the campaign with outnumbered French forces.

## **Expect Finns** Will Declare WarOnBoche

Stockholm, Sept. 18 (AP)-A formal Finnish declaration of war against Germany appeared imminent today as Finnish fury mounted against German troops who wantonly burned villages and farms as they withdrew from northern Finland.

The Finnish cabinet met last night in Helsinki, where the press asserted flatly that a state of war already exists with Germany, and there were strong indications that action could be expected momentarily. A declaration of war against Germany is one of the demands Russia is said to have made upon Finland as the price of peace with the Soviet Union.

## You don't do it with hay, brother!

It costs 86,000 good hard American dollars to lay a smoke screen on a 20-mile beachhead for a single hour.

Worth it?

What would you think if you knew your life depended on reaching that beach without being spotted by the enemy?

You'd be mighty glad that - in this war - everything is being done to give the American soldier the best possible chance to live and win ... money no object.

You wouldn't have it otherwise, would you?

Then remember - you've got to do your part by buying and holding War Bonds. Your dollars are needed to help lay the smoke screen...provide the "softening up" bombardment...flatten the deadly pill-boxes.

That's what your War Bond money does right now.

And in the future it will do still more ... both for you and

for your Country. War Bonds are your safest, and smartest, investment. In ten years, they'll bring you back four dollars for every three you put in. And that money will mean purchasing power...for you. It'll mean jobs and a healthier economy in America.

So buy more Bonds than you've been buying. Buy more than you think you can afford.

They help toward a quicker Victory...and a happier peacetime for you.

## **ALERT DARKENS** LONDON AGAIN

air raid alert plunged London and the southern countries into darkness again last night as the Germans quickly responded to the lifting of blackout restrictions throughout Britain by sending a few flying bombs hurtling across the English

If the Nazis hoped to mar a celebration in the British capital, however, they failed in their purpose, for lifting of the blackout brought no startling change in this great city which has lived in darkness for five years.

While some outlying cities were much brighter, London was slow to react. A few dwelling lights shone bravely here and there, and in the night club belt the doors of cafes, theaters and public houses reflected unwonted brilliance. But few street lights were on and it may be days or even weeks before they are fully restored because of the lack of a master switch system.

Every home and building in the city is equipped with special heavy curtains and other precautions to prevent the least glimmer of light showing outdoors and many people are not disposed to disturb these while there is danger of further

# **ALERT DARKENS**

London, Sept. 18 (AP)-A brief air raid alert plunged London and the southern countries into darkness again last night as the Germans quickly responded to the lifting of blackout restrictions throughout Britain by sending a few flying bombs hurtling across the English Channel.

If the Nazis hoped to mar a celebration in the British capital, however, they failed in their purpose. for lifting of the blackout brought no startling change in this great city which has lived in darkness for

While some outlying cities were much brighter, London was slow to react. A few dwelling lights shone bravely here and there, and in the night club belt the doors of cafes, theaters and public houses reflected unwonted brilliance. But few street lights were on and it may be days or even weeks before they are fully restored because of the lack of a master switch system
